UNDERGRADUATE
Advanced Python
Introduction to Programming
Java
R-DBMS
Design and analysis of algorithm

SKILLS

PROGRAMMING
Languages:

• Advance:- Python
• Intermediate:- Dart
• Novice:- JavaScript
• Novice:- Java

Tools:

• Django
• REST API
• Bootstrap
• Angular
• Flutter

Technologies:

• HTML
• CSS
• MySQL
• Git

CERTIFICATES

• BCA-KANNUR UNIVERSITY
• Python Django Fullstack
• Python(Basic) HackerRank

EXPERIENCE

LUMINAR TECHNOLAB   Developer Intern | Jun 2023 - Dec 2023
Kochi, India

BACK-END Python | Django , REST API

• Implemented a robust backend infrastructure leveraging REST API, MySQL, and Django, resulting in a 50% reduction in server response time
•Implemented 10% more robust databases with Django, REST APIs, and MySQL

FRONT-END | HTML/CSS | Bootstrap | Angular | JavaScript

• Enhanced application performance by 35% developing the frontend using HTML, CSS, Bootstrap, JavaScript, and Angular
• Increased optimization of applications by 3% and reduced backend response time
• Used Git for version control

CROSWER   Intern | Aug 2022 - Mar 2023 | Kannur, India

BACK-END | Supabase | SQL
• Optimized server response speed by 15% by developing the backend database using Supabase and SQL
• built 5% faster and more reliable server database during the internship period

FRONT-END | DART | FLUTTER

• Increased application performance by 20%
• Boosted application optimization and backend response time by more than 10% leading to the development of more reliable applications
• Used git for version control

PROJECTS

TRAVALISTA | Airlines and hotel room booking application
Jun 2023 – Dec 2023
• A web application for airline and hotel bookings
• Built using Django framework, REST API, Angular, HTML, CSS, Bootstrap, and JavaScript during my internship at Luminar Technolab
